NUMBERS. OUR AUDIENCE.

45,000 READERSHIP. **PER WEEK**

READERSHIP. Publisher Estimate conservatively based on the circulation numbers.

18,000 PER WEEK

CIRCULATION of the News Of The Area publications in total (per week). Our papers are **physically collected** by the public, making it a much higher assumption of 'value and worth', by comparison to a blanket-home-delivery model whereby todays climate gives evidence to disregard and wastage from this model (low value).

TARGETED WILLING AUDIENCE

2.5 PER HOUSEHOLD. Various members of a household may eventually read the same copy of a newspaper. Also a publication might be passed around from person to person in an office. This "pass-along" rate is generally thought to be about 2.5 readers in reasonable estimates. Conservative estimate would realise News Of The Area readership as over 30,000.
